

MRI Technologist

Location: Mississauga

Setting: Outpatient clinic

Job Summary: We are looking for MRI Technologists to join our team for a stable long term career opportunity.

- Full-time/Part-time available
- Competitive Salary
- Signing Bonus
- Tuition Reimbursement Program
- Benefits/RRSP options

Responsibilities:

Perform MRI imaging procedures in Greater Niagara Medical Imaging Clinics as required in an accurate and concise way

- Monitor and record the physiological condition of the patient prior to and throughout the procedure.
- Ensure concerns of all patients and their families are addressed appropriately in order to relieve any anxiety associated with the examination.
- Input patient data into the system correctly.
- Check previous relevant studies (US, CT, MRI, Nuclear Medicine and Mammography) and make comparison.
- Check and collect Clinical History.
- Follow all protocol provided in regards to specific scanning criteria.
- Ensure observations sheets are legible, clear and concise.

Qualifications:

- Current CMRTO registration.
- Must have the training, experience and knowledge to consistently produce high quality diagnostic images.
- Demonstrate ability to work both independently and as part of a team.
- Above average communication (written and verbal) and interpersonal skills.
- Patient-focused orientation and the ability to provide excellent patient care.
- Ability to maintain a professional demeanour and work well under pressure.
- Proficient in using Microsoft Office products, email and internet.
- A good employment record is required.

Please send your CV and inquires to kshah_md@hotmail.com, 905 626-9426
